PROJECT EXPERIENCE

Student Recruitment Systems

- Developed user friendly Web-Application(dynamic) which will help HR to easily recruit the fresher's student.
- This application also helps the students to find job according to their skills.
- This will also help to reduce the time for recruiting students.
- I worked on both the Frontend as well as Backend of this project.
- The language has been used are:
Frontend: HTML, CSS, JavaScript, Bootstrap
Backend: C#, SQL Server

Sai Group | Freelance Web Developer

- Developed attractive and user-friendly websites for my client.
- Utilized HTML, CSS, JavaScript and Bootstrap to design a visually captivating and responsive user interface, effectively showcasing the company diverse portfolio and architectural achievements.
- Collaborated closely with the client to understand their vision and incorporated intuitive navigation to enhance user experience.

CERTIFICATE

- Java Certified in OOPS provided by **Great Learning** Platform
- TCS iON Career Edge - Young Professional
